Welcome to the course “Starting Out with Java”- 1DV532!

This letter is addressed to you as a student who has been admitted to the above summer course. Nadeem Abbas is the course coordinator and contact person for the 1DV532, a distance learning course aimed at both Swedish and international students.

Course Homepage
Teachers will guide you by providing lecture notes and assistance in practical applications. **The course, however, is mainly based on self-studies and requires a lot of work on your own.** All the course information and materials, including lecture notes and assignments, are distributed through the course homepage. Thus, a student's access to the course homepage and its communication channels is a core premise to success. The course homepage can be accessed using this link: [https://mymoodle.lnu.se/course/view.php?id=47573](https://mymoodle.lnu.se/course/view.php?id=47573). Use your LNU student ID and password to login and access the homepage.

The course formally starts on June 15 but since it’s a distance-learning course, there will be no physical meetings during the course. On the first day between 10:00 - 12:00 am, I will be available for questions on the course homepage and a slack channel. Information about the slack #channel will be posted on the course homepage.

Course Registration
After getting an admission offer, it is very important for you to register the course. **Without registration, you will not be able to access course homepage and participate to the course.** You need your LNU student account to register the course. Information about obtaining LNU student account and instructions for course registrations are given at [https://lnu.se/en/student/new-student/](https://lnu.se/en/student/new-student/). **In case of difficulties with course registration, please contact education administrator Ewa Püschl, eva.puschl@lnu.se.**

Course Literature

We recommend the above two books for the course. You may, however, use any other book of your choice that supports the course contents.

Most welcome to join the course!
(If having questions, don’t hesitate to email me on: nadeem.abbas@lnu.se)
